

# Maths Eyes Challenge

Boys and Girls

We challenge you to become Moneynick's greatest photographers.

Explore the world around you with your maths eyes. Look for shapes, numbers, angles or pairs. Visit our home learning pages at [www.moneynickps](http://www.moneynickps) for extra numeracy and ICT activities.

Name the angle and estimate its size.

Create a PicCollage using your photos.

Send your 'maths eyes' photos to [info@moneynickps.randalstown.ni.sch.uk](mailto:info@moneynickps.randalstown.ni.sch.uk)

## Safeguarding

If your child is in the photo do not include his/her name to adhere to our child protection policy. Children must always have adult supervision when working online.
