

The Farm Safety Challenge

Boys and Girls!

The farming community are busy at the minute. We have tractors, harvesters, bailers and combines travelling on our roads and working in fields. To ensure we know how to stay safe on the farm this week we challenge you to complete our Farm Safety Home Learning activities.

The ultimate goal is to design a poster for the HSENI.

Watch the video, discuss the presentation, complete the activities and then design your poster. More information regarding terms and conditions and some special examples can be found on our website at www.moneynickps.com.

Stay Safe! Good Luck!
